

NEW RANGE OF PRESSURE AND TEMPERATURE TRANSMITTERS

The new AUTROL range offers top-flight specification and quality at down to earth prices.

- Smart **HART** Protocol
- Complete pressure and temperature range of process control transmitters
- 100:1 rangeability of pressure transmitters
- EEPROM stored temperature element tables in temperature transmitter
- $\pm 0.075\%$ Accuracy
- Programmable engineering units digital display
- Explosion proof to C.S.A. and intrinsically safe to K.T.L.

The AUTROL range is brought to market by  providing

- In depth application knowledge
- An extensive range of isolating diaphragm seals with appropriate fitting and filling techniques
- In house accredited NATA laboratory
